

AED One-Stop Shop's Comprehensive AED Readiness Audit

Not all AED vendors are created equal. Responding to your quote requests and supplying AED devices and consumables may not be enough to keep your organization ready to save lives and simultaneously being compliant with laws to mitigate legal risk. AED One-Stop Shop stands apart in that we are a "partner" to you in protecting lives rather than a vendor or supplier.

The Comprehensive AED Readiness Audit is designed to empower your organization with the knowledge and tools to safeguard lives. Following this audit, AED One-Stop Shop will work with you to implement recommendations, provide training solutions, and ensure your AED program is compliant, efficient, and lifesaving. **This service can easily be valued at \$4000 or more, we offer it to your organization at no charge as a way of demonstrating our commitment and desire to partner with you.**

1. AED Serial Number Lookup & Device Health Check

AED One-Stop Shop conducts a thorough review of all AEDs on your premises, examining:

- **Recall Search by Serial Numbers:** Cross-referencing with manufacturer databases to check for any recalls or product notices.
- **Device Age & Warranty Status:** Determining if any AEDs are approaching the end of their manufacturer's warranty or life expectancy and recommending device upgrade replacements if needed.
- **Battery & Electrode Pad Expiration:** Identifying the expiration dates of key components such as batteries and electrode pads to ensure the devices are always fully operational.

2. State and Federal AED Law Compliance

Ensuring legal compliance is crucial to both the readiness and liability protection of your organization.

Our audit covers:

- **State Good Samaritan Laws:** Reviewing laws specific to your State(s) that provide legal protection to AED users.
- **State and Federal AED Requirements:** Ensuring compliance with mandatory AED registrations, signage, and public access laws.
- **Important Registrations:** Verifying that all AEDs are properly registered with the appropriate local and state authorities, if required.

3. Inspection Procedures & Policies

Routine inspections are essential to maintain AED readiness. We will evaluate your current processes and make recommendations for improvement:

- **Routine Inspection Schedules:** Assessing the frequency and quality of AED inspections to ensure devices are ready to use at all times.
- **Inspection Logs:** Ensuring that records of AED checks are properly maintained, meeting both legal standards and best practices.
- **Real-Time Alert Systems:** Recommending best-in-class software or systems to automate AED inspection reminders and reporting to include the new generation of WIFI and Cellular capable AED devices.

4. CPR Training & Certification Requirements

For an AED program to be effective, personnel must be properly trained in both AED usage and CPR:

- **CPR Certification:** Reviewing if key staff members hold up-to-date CPR certifications in accordance with American Heart Association (AHA) guidelines or other recognized bodies.
- **Training Frequency:** Recommending best practices for ensuring staff certifications remain current.
- **CPR/AED Training Programs:** Offering suggestions for accessible training programs and certifications to keep personnel prepared for emergencies.

5. AED Placement Evaluation & Response Time Analysis

Quick access to an AED can significantly improve survival rates during a cardiac arrest.

Our audit will assess:

- **Optimal AED Placement:** Analyzing your current AED locations to ensure they are strategically placed to maximize response times during an emergency.
- **Response Time Gauging:** Mapping out AED locations against common employee or visitor traffic patterns to ensure quick access during peak hours or in areas of higher risk.
- **Accessibility and Visibility:** Ensuring AEDs are easily visible and accessible, and recommending improved signage if necessary.

6. Professional Recommendation Summary

AED One-Stop Shop is most qualified to provide expert level consultation, this can be verified by the AED Manufacturers. Based on the findings of the audit, we provide a comprehensive summary with actionable recommendations to enhance your AED program, including:

- **AED Program Enhancements:** Offering detailed recommendations for additional AED units or upgrades to the latest generation of life-saving devices if necessary.
- **AED CRMs Compliance Readiness & Maintenance:** Web-based readiness software which can be paired with your current AEDs or new WIFI-ready devices for the ultimate in AED readiness.
- **Advanced Trauma Kits:** Suggesting complementary equipment such as trauma kits to improve emergency readiness.
- **Evacuation Aids & Equipment:** Recommending additional equipment, such as evacuation chairs or other tools, to support broader emergency preparedness efforts.

Conclusion

The Comprehensive AED Readiness Audit is designed to empower your organization with the knowledge and tools to safeguard lives. Following this audit, AED One-Stop Shop will work with you to implement recommendations, provide training solutions, and ensure your AED program is compliant, efficient, and lifesaving.
